Our service begins with design and creativity; we oversee every step of project development and the realisation of each carpet, as a unique piece and true luxury item.

Platinum Custom Rugs celebrates the interpretation of style.

UN NUOVO CONCETTO DI LUSO A NEW CONCEPT OF LUXURY

Abbiamo ridisegnato anche il concetto di lusso, che va oltre la qualità totale del prodotto e del servizio. Per noi il valore più alto sta nell'essere unici, e liberi di esprimere la propria cifra personale, anche attraverso oggetti che parlano di noi. Un tappeto personalizzato, creato esclusivamente per il cliente, sa interpretare questa versione del lusso e del design come linguaggio del sé.

Platinum Custom Rugs è un universo esclusivo.

We have also redesigned the concept of luxury, going beyond the total quality of the product and service. For us, the highest value lies in being unique and free to convey one's own personality, including through objects that express who we are. A custom rug, created exclusively for the customer, interprets this version of luxury and design as a personal language.

Platinum Custom Rugs is an exclusive universe.

ANIMA ITALIANA ITALIAN SOUL

L'Italia è la nostra prima fonte di ispirazione: la bellezza di luoghi ineguagliabili e la cifra stilistica di una tradizione artistica e culturale unica al mondo. I designer italiani sono eredi di tutto questo, e creano manufatti iconici, tappeti a concetto sartoriale che sono espressione dell'eccellenza artigianale del Made in Italy.

Platinum Custom Rugs, una storia ordita attorno ai valori del Made in Italy.

Italy is our main source of inspiration: the unparalleled beauty of its places and the style of a one-of-a-kind artistic and cultural tradition. Italian designers have inherited all this, and create iconic artefacts, tailor-made rugs that are an expression of Italian manufacturing excellence.

Platinum Custom Rugs, a story warped around the Made in Italy values.

LIBERI DI ESSERE UNICI
FREEDOM TO BE UNIQUE

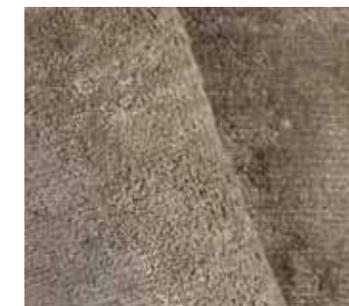

La Viscosa

è una fibra naturale derivata dalla cellulosa ed è molto simile alla seta. Una caratteristica dei tappeti realizzati in pura Seta Vegetale è la loro particolare lucentezza e, a seconda di come la luce colpisce la superficie, il colore del tappeto sembra cambiare. È morbida al tatto.

Viscose

is a natural fiber derived from cellulose and it has a silk-like aesthetic. The rugs made by pure Plant Silk have a lovely sheen and depending on how the light hits the surface, the colour of the rug appears to change. It is soft to the touch.

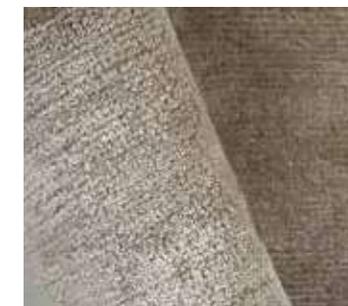

Il Lino

è un filato ottenuto dalla pianta del lino. I tappeti in lino sono lucenti e aiutano ad assorbire l'umidità. La filatura del Lino è molto laboriosa e necessita di grandi competenze. I tappeti di lino sono apprezzati per la loro eccezionale freschezza anche in ambienti molto caldi.

Linen

is a yarn made from flax. Linen rugs are lustrous and can help absorb humidity. It needs a lot of tasks and efforts to manufacture it. Rugs made of linen are valued for their exceptional coolness and freshness in hot weather.

Il Tencel

diffuso a partire dagli anni '90, questa fibra vegetale viene prodotta dalla cellulosa. Resistente e traspirante, viene molto impiegata nell'arredamento, oltre che nell'abbigliamento. Al tatto è morbida, con un pannello molto fluido, alla vista risulta lucida, setosa. Scelta "green", è un materiale riciclabile e biodegradabile.

Tencel

used extensively since the 1990s, this plant fibre is produced from cellulose. Strong and breathable, it is used very frequently in both furniture and clothing. Soft to the touch, with a very fluid draping and a glossy, silky appearance. It is both recyclable and biodegradable, making it a "green" choice.

La Seta

è una fibra proteica sottile formata dai bachi come sostanza di costruzione per bozzoli e ragnatele. È una fibra organica molto apprezzata per la tessitura. I tappeti in seta sono sinonimo di lusso.

La fibra di Seta, straordinariamente brillante, fornisce un tocco di lusso e valore ai tappeti fatti a mano.

Silk

is a fine protein fiber formed by silkworms as construction substance for cocoons and webs.

It has been a much prized organic fiber used for weaving.

Silk rugs are an epitome of luxury.

Strikingly brilliant Silk fiber provides a deluxe touch and value to the hand made rugs.

La Lana New Zealand

è una lana molto fine e proviene dalla Nuova Zelanda. È considerata uno dei prodotti più raffinati dell'arredo domestico nella realizzazione di tappeti. Le caratteristiche della fibra aiutano a dare una finitura decisa.

È apprezzata per le sue qualità di assorbimento acustico ed è una fibra che assorbe il calore.

È caldamente consigliata per le aree ad alto traffico.

New Zealand Wool

is a very fine wool and comes from New Zealand. It is considered to be the finer product of home décor in rug produce.

The peculiar characteristics of the fiber give a firm finish. It has sound absorption qualities and it is a heat absorbent fiber. It is highly suggested for soaring traffic areas.

La Seta di Bamboo

è una fibra che sembra seta ed ha un particolare aspetto a forma di foglia di bamboo. È morbida e fresca al tatto. Sebbene non siano delicate come quelle della seta tradizionale, le fibre della Seta di Bamboo sono troppo delicate per sopportare un alto calpestio.

Bamboo Silk

is a fiber that seems like silk and its peculiarity is the bamboo leaves shape.

It is soft and cool to the touch.

Although not as delicate as traditional silk, Bamboo Silk fibers are too delicate to support heavy foot traffic.

Reach

a EU regulation limiting the levels of specific chemicals in all imported goods.

ANNODATO A MANO HAND KNOTTED

È tecnica di costruzione tramandata dall'antica tradizione, che fa del tappeto un'opera artigianale, esclusiva e di grande pregio. La tessitura è interamente realizzata a mano, rendendo ogni tappeto un pezzo unico. Due tecniche di annodatura, chiamate Nepalese e Orientale, indicano una diversa finezza di lavorazione.

La tecnica di annodatura nepalese, con circa 60 linee per campione (cm 23x23), è ideale per disegni semplici.

La tecnica di annodatura orientale è più fine, con 80/100 linee per campione (cm 23x23) consente di realizzare sfumature e disegni molto particolareggiati.

The construction technique has been handed down from ancient traditions, making the rug an exclusive work of craftsmanship of great value. Each rug a unique piece as it is entirely woven by hand. Two knotting techniques, called Nepalese and Oriental, indicate different finenesses of work.

The Nepalese knotting technique, with about 60 rows per sample (23x23 cm), is ideal for simple designs.

The Oriental knotting technique is finer, with 80/100 rows per sample (23x23 cm), suitable for creating very detailed nuances and designs.

TUFTATO A MANO HAND TUFTED

I tappeti Tuftati a mano vengono prodotti perforando i singoli filati attraverso un foglio di tessuto usando un dispositivo chiamato "pistola a trapano". Una volta completato il tappeto, un secondo tessuto viene incollato sul retro per mantenere in posizione i filati. Si realizzano tappeti a più colori, con disegni dalle linee definite, anche su diversi livelli.

Hand tufted rugs are produced by punching individual yarns through a fabric sheet using a device called a "tufting gun". Once the rug has been completed a second fabric is glued to the back to hold the yarns in place. Rugs are made with different colours and designs with clear lines, including on different levels of pile.

CREATIVITÀ PURA E SENZA FINE
PURE UNLIMITED CREATIVITY

Si può scegliere qualsiasi misura e forma?

Sì. Il cliente è libero di scegliere la misura (superiore ai 3 mq) e forma che preferisce. I tappeti sono ad appoggio e non ad incasso, quindi c'è sempre una percentuale di tolleranza del +/- 3%.

La decorazione è già pronta o si può anche ideare ex novo?

I nostri designer hanno elaborato più di 50 disegni già disponibili. Ma si può anche partire da un'idea del cliente, ad esempio il disegno di un tendaggio o la trama di un tessuto già presente in casa.

Per la scelta colore come ci si orienta?

Le soluzioni Pantone offrono 2100 colori per incontrare la tonalità più in armonia con gli ambienti, ma si può anche optare per un melange inedito.

Il tappeto in quale fibra viene realizzato?

La qualità varia a seconda del budget disponibile: Lana New Zealand Extra Fine, Seta Vegetale, Pura Seta. Vi è inoltre una vasta gamma di materiali inediti, quali Seta di Bamboo, Lino.

Si può scegliere qualsiasi tipo di tappeto?

È possibile realizzare un tappeto a pelo lungo o rasato, a vello alto o con disegno ricavato dalla stessa rasatura.

Si può avere un campione, previa conferma del progetto?

Certamente. Possiamo realizzare un campione 60x60 cm che rispecchia fin nei dettagli il disegno e materiale prescelto.

Si può disporre di un rendering per un'idea dell'effetto finale?

Sì, a richiesta i nostri designer elaborano una simulazione attendibile del risultato reale.

Qual è la tempistica di realizzazione?

Grazie alla nostra manifattura in India possiamo produrre e consegnare da 1 a 3 tappeti in 45 / 60 gg.

Can I choose any size and shape?

Yes. You are free to choose the size (over 3 sqm.) and shape. All rugs are meant to be laid on the floor and not to be built-in it, therefore a +/- 3% tolerance shall be considered.

Is the decoration ready-made or can it be also designed from scratch?

Our designers conceived more than 50 patterns which are already available. But we can also work on your ideas, for example starting from curtains or other fabrics patterns that you have at home.

How do I choose the colour?

Our colour chart includes 2100 colours in order to find the tone best suiting your environments, but you can also opt for an original blend.

Which fibre is used to manufacture the rug?

Quality varies according to the available budget: Extra Fine New Zealand Wool, Plant Silk, Pure Silk. In addition, a wide range of unusual materials, such as Bamboo Silk and Linen is available.

Can I choose any type of rug?

You can either realize a long or short pile rug, or with a pattern made on the rug shearing itself.

Can I receive a sample, upon project confirmation?

Sure! We can realize a 60x60 cm. sample which will accurately reproduce pattern details and the chosen material.

Can I receive a rendering to have an idea of the final effect?

Yes, our designers can elaborate a reliable simulation of the final result.

What is the lead time?

Our manufacturing plant in India enables us to manufacture and deliver 1 to 3 rugs in 45/60 days.
